PROFESSIONAL SUMMARY

Commerce graduate with experience across marketing, customer engagement, and financial analysis. At Reflections, gained firsthand exposure to B2B customer behaviour, brand communication, and business operations. Previously worked on financial reporting and process improvement at Redington. Interested in the intersection of technology, business strategy, and brand building, with a long-term ambition to develop and lead customer-centric businesses.

WORK HISTORY

June 2025 - April 2026

Marketing executive, Reflections, Chennai

- Engaged with B2B customers to understand how they evaluated workplace lighting and seating solutions and what influenced their purchase decisions.
- Planned and managed digital content around customer interests, product communication, and consistent brand positioning across social platforms.
- Analyzed customer interactions and sales activity in Excel to identify follow-up opportunities and understand the movement from enquiry to purchase.
- Worked across marketing, sales, and operations to translate customer requirements into practical business actions.

May 2024 - July 2024

Finance Intern, Redington Ltd, Chennai

- Analysed and corrected balance sheet discrepancies across consolidated entities, improving financial data accuracy and supporting informed business decisions
- Processed and organized documentation for car loan portfolios using systematic data entry and validation protocols
- Integrated asset information into SAP system, ensuring data consistency and supporting financial reporting requirements
- Conducted data maintenance and journal record reconciliation using Finalizer software, reducing processing errors

February 2022

Project Intern, Anil Sharma A and Associates, Chennai

- Developed 5-year bank projection model in Excel, providing strategic forecasting for company financial planning
- Automated manual Excel workflows using VBA macros, reducing data processing time by 40% and improving operational efficiency
- Created presentation visualizations from financial data, effectively communicating insights to senior leadership

ACCOMPLISHMENTS

- Finalist in international table topic contest in Gavel-u-Tion 2019
- Scout Governor's award (Rajya Puraskar)

ACTIVITIES

- Head Organizer, Sayonara'24 Farewell Event | Successfully orchestrated senior class farewell event, managing all promotional, logistics, and coordination responsibilities
- Head of PR Team, Instinct '23 (IPL Auction Event) | Led PR strategy and campaign execution, driving record participation and highest event engagement
- Core Committee Member, Invente'24 PR Team | Contributed to event promotion strategy and brand communications

PROJECTS

3-Statement Financial Model – Reliance Industries

Developed comprehensive Excel-based financial model with integrated P&L, Balance Sheet, and Cash Flow statements. Conducted scenario and sensitivity analysis across multiple economic conditions. Generated revenue forecasts using CAGR methodology and analysed key financial ratios (ROE, ROCE, Margin trends). Model designed to support data-driven business insights for strategic planning.

- **Scenario Analysis:** Simulated multiple economic scenarios.
- **Sensitivity Testing:** Impact of key variables on financials.
- **Revenue Forecast:** Projected growth using CAGR assumptions.
- **Integrated Statements:** Linked P&L, Balance Sheet, Cash Flow.
- **Ratio Insights:** Analyzed ROE, ROCE, Margin trends.

Key Skills Demonstrated: Financial Modelling | Excel | Data Analysis | Scenario Planning

Anand Agency - Term Loan Projection

Built detailed term loan projection model for debt financing evaluation. Included loan amortization schedule with monthly EMI calculations, cash flow forecasting for debt servicing capacity assessment, and interest rate sensitivity analysis. Aligned projections with bank submission format, enabling informed lending decisions.

Key Skills Demonstrated: Financial Analysis | Excel | Cash Flow Modelling | Project Completion
